

Bakery Tamp Labeler

BAKED GOOD PACKAGING

Consistent label placement on all baked goods packages

The EPI Bakery labeler is designed specifically to apply labels to bakery packages ranging from flexible bread & buns to sweet goods as well as rigid cake and pie containers. The labeler is supplied with a pivoting applicator assembly that allows quick changeover from top to side of package application without moving the labeler. An adjustable T- Base stand (included) allows the labeler to be moved from line to line in minutes. Three simple mechanical adjustments are all that is needed to change label size. Solid State controls, sealed mechanical drives, and corrosion resistant materials mean that the EPI Bakery Labeler will apply labels accurately and neatly every time.

FEATURES AND BENEFITS

- Dependable, reliable, and versatile
- Ruggedized to adapt to the most demanding bakery environments
- 30 Second tool-less change over from top to gusseted end
- Includes rolling stand with lead screw height adjustment
- Continuous flow application
- Ease of set up
- Easy to thread and operate
- Flexible integration with minimal impact to your line
- Multiple configurations
- Variety of unwind sizes, standard 12"
- Intuitive controls, 10 min training
- Constructed entirely of non-corrosive materials

BAKERY TAMP LABELER

TYPICAL PRODUCT SPECS

Label Size: 1" x 1" to 6" x 6". Smaller/Larger size optional

Label Supply: 12" OD on a 3" Core. Larger size optional

Electrical: 2A @ 120 VAC, 60 HZ. Different supply voltage optional

Speed: 120/MIN (based on 3" x 3" label)

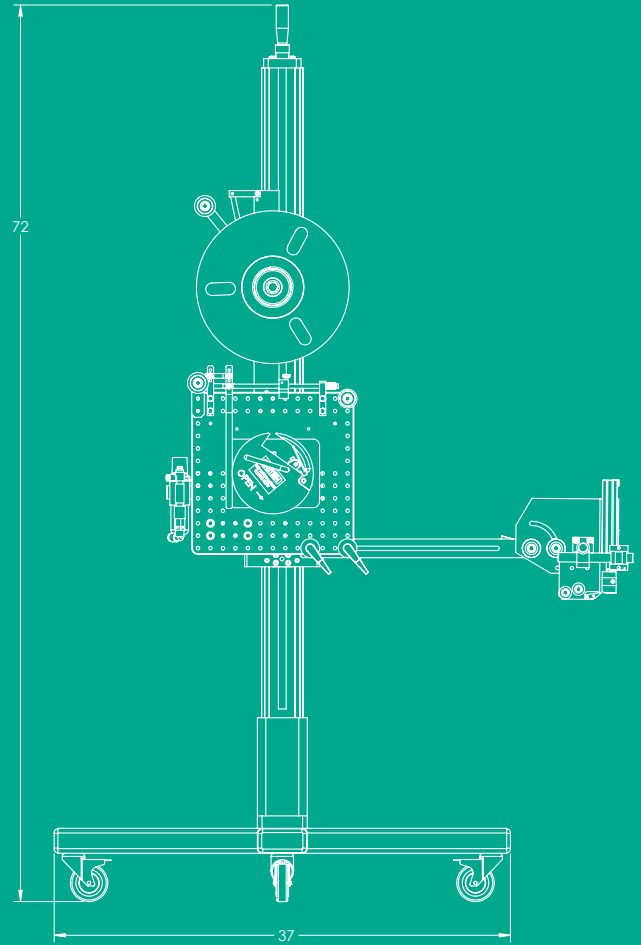

Pneumatic: 2 SCFM, 80 PSI

Configurations: Vac/Blow, Tamp

Optional Printing: A variety of printing solutions are available including inkjet, rotary or reciprocating printers

OPTIONS

- Supplied with a portable stand, or may be mounted to an existing conveyor.

Measurements in inches.

WHY EPI?

For over 35 years EPI Labelers have been designed and engineered for reliability and ease of use. We take the time to understand each application and listen to our customers needs. Let us show you how precise thinking and simple design can help you.

RELIABLE

EPI Labelers are built to stand up to the daily use and harsh environments that come with the territory. Enclosed direct drive technology along with corrosion resistant material allows our labelers to work in dusty, wet and cold packaging operations with a minimum amount of maintenance required. Your operators and mechanics will appreciate EPI Labelers ease of set up and use.

VERSATILE

Sure, EPI Labelers are easy to set up and operate, but the versatility that is engineered into all our equipment allows you to use our labelers in a variety of applications. Whether your job calls for a non-contact vacuum/blow, tamp or two panel application we can configure our labelers to meet your needs.

QUICK AND EASY SETUP

Our customers tell us that EPI Labelers give them the ease of use that they have not experienced with other labeler equipment. The cantilevered design lends itself to easy threading and the simple mechanical adjustments needed to change label size make EPI Labelers a favorite of mechanics and operators everywhere.
